Two official languages

Beyond the teaching of a language...

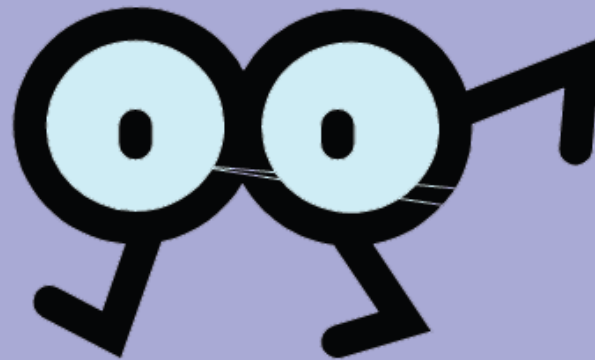

More than creating an environment where a child can learn the French language, our purpose is to offer a context where the child develops a sense of pride, a desire to belong and the will to contribute to the Canadian community.

It is therefore a matter of developing positive behaviors and attitudes towards the French culture.

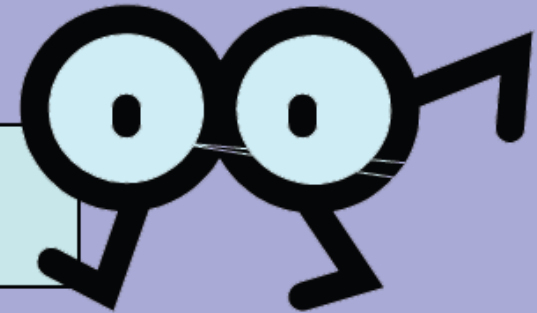

« Knowing a language or understanding a culture is not enough to identify with the language and the culture. Your child needs to feel that he belongs to the French community. »

Dream Big Little by Little

Heritage...values

What are values....?

If it's a value, it's a priority!

Something has value because
it is worth a lot of money

Something of value takes time

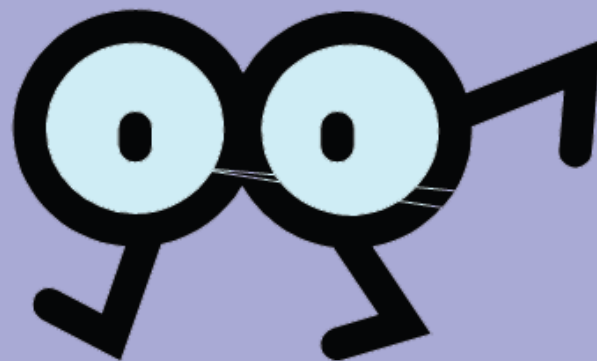

I have self worth, I value myself,
I am worth it

Parents thank us for teaching their children,
not only for what we do,
but for who we are as a person
and mainly for who we have inspired
their children to become.
